

INTERNATIONAL SEMINARS

IN
MATERIALS SCIENCE AND ENGINEERING

Dr. Michael Kaufman

Professor and Director of
Materials and Energy Initiatives,
Colorado School of Mines
United States

Date and Time

September 25th
4 pm

Venue

**Sala de seminários do
PPGCEM**

HOW UNIVERSITY RESEARCH AND EDUCATION IN THE US DIFFERS FROM THAT IN BRAZIL WITH AN EMPHASIS ON MATERIALS?

In this talk, I will highlight some of the similarities and differences in the education of students and postdocs in the US vs. Brazil, with an emphasis on students pursuing a degree or postdocs conducting research in materials science and engineering. I will highlight specifics about materials research and education at my home institution, the Colorado School of Mines, and will share what I consider the best strategies for students to secure graduate research positions or postdoctoral positions at Mines, which are similar to the approaches taken for other universities in the US.
